

The CPAP Hose Lift by Arden Innovations

Suspends your CPAP Tubing Overhead, Rotates with sleep movement, and thus, Eliminates the Hose Hassle inherent with All CPAP systems.

"the 4th element"

See ardeninnovations.com for details.

Testimonials

"I had the best night's sleep since starting therapy 3 months ago! Although the product is very lightweight, it is sturdy enough to deal with a "thrasher" like me. I continually toss side-to-side throughout the night; before the CPAP Hose Lift, I would wake up briefly to drag my hose along the headboard each time I turned. Now I can sleep through the night! This is a great low cost solution, and should be strongly recommended to every CPAP user."

—Aileen M, KENMORE, WA

Rating ★★★★★

"I purchased the Hose Lift as it was the cheapest. After using this for a few days I find that my choice was indeed the right one. It can be used on a regular basis at home (not just travel). Plus it works with a 6 foot hose."
